

RAJESH G R

Beginner Frontend Developer
rgr98624@gmail.com | 8050225728 | Bengaluru,India
Linkedin | **GitHub** | **Portfolio**

EDUCATION

RNS Institute of Technology

Electronics and Communication Engineering Bachelors of Engineering
CGPA: 8.5

Bengaluru,India

September 2025 - September 2029

EXPERIENCE

Qskill | Front-End Developer Intern

Remote | June/2026 - July/2026

- Completed 1-month Web Development Internship through Qskill
- Worked on HTML, CSS, JavaScript, and frontend development projects
- Built and Improved user-freindly frontend interfaces

Squarcell Resource India Pvt. Ltd. | AIML Intern

Remote | July/2026 - August/2026

- Developed Machine Learning models including House Price Prediction and Iris Flower Classification using Python and Scikit-learn.
- Performed data preprocessing, feature engineering, and model evaluation to improve prediction accuracy.
- Utilized Python, Pandas, NumPy, Matplotlib, and Scikit-learn for data analysis, visualization, and model development.

SKILLS

Programming Languages: C, Python, JavaScript, C++
Libraries/Frameworks: HTML, CSS, Streamlit, Pandas, Scikit-learn, NumPy, Seaborn, Matplotlib
Tools / Platforms: Git, VS Code, GitHub, Streamlit
Databases: SQL

PROJECTS / OPEN-SOURCE

Spotify Song Downloader

HTML, CSS, JavaScript , RapidAPI

- Developed a Web Application to fetch Spotify song information
- Integrated RapidAPI to process Spotify song links
- Designed a responsive and user-freindly interface for song search and download

Student Performance Predictor | Link

Python, NumPy, Pandas, Streamlit

- Developed a Machine Learning model using Linear Regression to predict student exam scores based on study hours, attendance, previous marks, and sleep hours.
Performed data handling using Pandas and trained the model using Scikit-learn.
- Built an interactive web application using Streamlit for real-time predictions.
- Saved and loaded the trained model using Pickle.
- Deployed the application online and maintained the source code on GitHub.

House Price Predictor | Link

Python, NumPy, Pandas, Streamlit, Scikit-Learn

- Built a machine learning model to predict house prices.
- Performed data preprocessing and feature selection.
- Trained and evaluated the model using Scikit-learn.
- Deployed the application using Streamlit.
- Tech Stack: Python, Pandas, NumPy, Scikit-learn, Streamlit.
